SKILLS

- Dart
- Swift
- Java
- Flutter
- State Management (BLoC, GetX, Provider)
- Firebase Integration (Firestore, Realtime Database, Firebase Authentication)
- Responsive UI/UX Development
- Localization & Push Notifications
- Google Maps & Location Services Integration
- Chart Libraries (e.g., FChart, Syncfusion)
- Socket Programming for Real-time Applications
- Material Design and Cupertino Widgets
- AWS S3 and Google Cloud Storage Integration
- Social Media Login (Facebook, Google, Apple)
- Stripe and Razorpay for Payment Gateways
- Flutter Web and Desktop (Windows, macOS, Linux)
- Git
- GitHub
- GitLab

PROFESSIONAL SUMMARY

Skilled in Flutter development, delivering robust and user-friendly mobile applications. Expertise in Dart, state management, and integrating RESTful APIs. Strong problem-solving abilities with focus on creating optimized and maintainable code. Offers meticulous approach to debugging and testing. Seeking to leverage these skills as Flutter Developer in building innovative and efficient mobile solutions.

EXPERIENCE

Flutter Developer

AJEEVAN TECH Pvt. Ltd.

Mar 2022 – Jul 2025

Surat, Gujarat

- Designed and implemented scalable, responsive UI components using Flutter and Dart.
- Delivered interactive and dynamic Flutter widgets with state management tools such as BLoC, Provider, and GetX.
- Developed intuitive and visually appealing mobile applications with custom animations and responsive layouts.
- Integrated RESTful APIs and Firebase services (Firestore, Realtime Database, and Authentication) for seamless backend communication.
- Built reusable Flutter components to enhance development efficiency and maintainability.
- Optimized application performance by resolving rendering issues, reducing widget rebuilds, and implementing lazy loading.
- Leveraged localization for multi-language support and implemented push notifications using Firebase Cloud Messaging.
- Focused on learning new skills and staying updated with industry changes.

EDUCATION

Bachelor of commerce

Veer Narmad South Gujarat University

Feb 2012

H.S.C

Ambaba Haripura Girls School

Jan 2009

TECHNICAL SKILLS

Dart, Swift, Java, Flutter, State Management (BLoC, GetX, Provider), Firebase Integration (Firestore, Realtime Database, Firebase Authentication), Responsive UI/UX Development, Localization & Push Notifications, Google Maps & Location Services Integration, Chart Libraries (e.g., FChart, Syncfusion), Socket Programming for Real-time Applications, Material Design and Cupertino Widgets,

- Live Chat Implementation (using Firebase, WebSockets)
- SQLite & Hive for Local Database Management
- Agile Development Practices
- Debugging and Performance Optimization
- CI/CD Pipeline Setup for Flutter Applications
- Third-party API Integration
- Unit Testing
- Widget Testing
- Integration Testing
- App Store & Play Store Deployment
- Knowledge of MVC and MVVM architecture patterns

AWS S3 and Google Cloud Storage Integration, Social Media Login (Facebook, Google, Apple), Stripe and Razorpay for Payment Gateways, Flutter Web and Desktop (Windows, macOS, Linux), Git, GitHub, GitLab, Live Chat Implementation (using Firebase, WebSockets), SQLite & Hive for Local Database Management, Agile Development Practices, Debugging and Performance Optimization, CI/CD Pipeline Setup for Flutter Applications, Third-party API Integration, Testing: Unit Testing, Widget Testing, and Integration Testing, App Store & Play Store Deployment, Knowledge of MVC and MVVM architecture patterns

PROJECTS

1. Wonobo (Map Service) - Domain: Mapping and Location Services
2. Snapdish (Food Service) - Domain: Food Delivery and Recipe Sharing
3. Yoorshop (Domain Service) - Domain: E-commerce for Domain Registration and Hosting
4. Video Maker App - Domain: Media and Social Sharing
5. Business Management App - Domain: Business and Productivity
6. Scanner App - Domain: Productivity and Expense Management
7. Happy Wedding App - Domain: Event Management and Personalization
8. Commonfloor.com App - Domain: Real Estate and Property Management
